HAN-GUN!

HAD THOUGH BEEN REJECTED WITH AN ALMOST JERRY  
FUNDAMENTAL TO THIS STRANGE TURN OF EVENTS. HE  
HAD AFTER ALL, KILLED TWO HANGGUNS ONCE BEFORE--

SHANGG!

HE SOON FOUND HIMSELF  
AT SERIOUS DISADVANTAGE

IT SEEMS NO JERRY  
THINKS IT SEEMS--

TO KILL A JERRY

"YOU WOULD KILL THEM, DEATH  
THE MEN WHO DID THIS TO ME?"

"YES."

"THEN, I WISH, TELL YOU WHAT  
I CAN DO FOR YOU, BUT FIRST,  
OLD FRIEND, I HAVE ONE LAST  
JEREMY TO ASK OF YOU."

"AMONG MY PEOPLE, IT IS  
SAID THAT THE DEAD CAN  
NEVER FORGET. BE FINE AS  
SAND AS THE MOST LIES  
REMEMBERED IN THE WORLD."

"SO, I NOW YOUR DEATH. COME WITH ME TO  
REVEALING THAT WE HAVE BUILT A FORT AND  
GIVEN JEREMY AND JEREMY'S LUCKY IT."

"FOR I KNOW NOW THE TRUTH OF  
SOMETHING I TOLD YOU LONG AGO:  
THERE IS NO PLACE FOR AN EASY-  
BUILT IN PARADISE."

"BUT PERHAPS..."

"PERHAPS, ONCE HER ARMED AND WERE  
FIRE BUILT TOGETHER ON THE WIND,  
I CAN AT LEAST BRING JEREMY."

AND SO IT BECAME AS JEREMY SAID. COMING  
TO AN OLD CAMPFIRE THROUGH THE PLAINS,  
BUT WHERE ONE TOLD EACH, ANOTHER BECAME.

"FOR NOW DEATH EVEN THAT  
CONQUERED A JEREMY  
SAID, PLOTTED HIS  
DESTRUCTION - AN EASY  
WILLING TO RAISE THE DEAD  
TO KILL HIM JEREMY."

"AND IN TIME..."

"IN TIME, THERE WOULD  
BE A JEREMY."

It is not enough for a Prince to simply  
destroy his enemies in a single  
stroke, nor only in his bed - it must  
also, and especially being - must be  
created without mercy.

Always remember you have more  
to fear from the vengeance of the  
living than the revenge of the  
dead.

Personal Log, Sergeant Paul Martin, 8th Company, 1st Shock Regiment Imperial Guard

Day 4-1

We're stuck here in the ice wastes of Svaline. Friendless, hopeless, starving, freezing. And then this. The men tried to take me out of it but that has to be done.

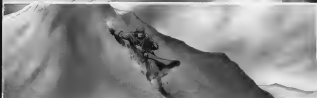

Despite orders, Trooper Sporkin stole his food grain. He ingested enough poisoning and it drove him mad. He tried to eat the corpses of our dead. Then he killed Trooper Koff and almost killed me.

Squad scattered off. Sporkin ran like a mad dog off the ice station into the wastes. The men say I should leave him to his fate. But I think different. At least his trail is easy to follow.

WHAT IN  
THE NAME OF THE  
EMPEROR!

Just one look, and then the Space Wolf is gone. Like a phantom. And I realize more  
than ever that we are all just a heart-beat from death and anxiety. And a heart-beat  
from becoming the monsters we despise.  
And a heart-beat from hope.

## NEW FROM THE BLACK LIBRARY

The hordes of Chaos are continuing their brutal assault on the Black Library, but this time the enemy is within!

Warhammer Loremaster, Gav Thorpe, unleashes the first episode in his epic *Saves to Darkness* trilogy. *The Claws of Chaos* is the doom-laden saga of loyal Empire knight Kurt Leitrig and his dark journey down the path of damnation. Gav, author of the war-torn *Lion Chargers* novels, novels, death, corruption and honour, then serves it up with a side order of sweeping battle.

Meanwhile, in the grim darkness of the 41st millennium, things are far from idyllic! Drusus sees the noble Imperialist siding off against each other after their ideological debates turn to death and despection. Ian Watson, screenwriter of Spielberg's A.I., retells his

classic story of corruption and betrayal to a whole new generation!

Staying with the far future, Kloves and his gang of redemptionists continue their purge of the Necromundan Ulsd raves in part 3 of *The Redeemer*. This fantastic full-colour comic series has to be seen to be believed!

Remember though! If it doesn't hurt, it doesn't count!

As if all that wasn't enough, Sister of Battle Ephraël Stern returns in the *Damned* hardcover graphic novel. Created by Ken Wilner & Jim Campbell, this luxury oversized hardback collects the long out-of-print *Damned* graphic novel and adds extra bonus material. A must for all comic fans.

## INCOMING

✦  
✦✦ Dear Basil Blade

Kal Jerico's in a huge bit of trouble! Going for a very big haul of technology (= I know that space hulks contain a vast prize but sometimes it's that price worth paying? Not if there's Necrons or Tyranid Genestealers aboard! I'm just guessing) but I do suspect that one or the other may be

onboard this giant space hulk, Kronos. Still, maybe issue 58 will reveal the truth of this matter to us...

A Knot with Kal Jerico? What a novel way to introduce that particular species to the comic reading public. What a pity you can't get Mordak to consume Gutspew. On the other hand, perhaps not. As I recall, in a recent White Dwarf article some Knot suffered a very dangerous form of 'indigestion' which tore apart a Tas bottle echelon and nearly granted foul chaos victory. Gutspew would probably give Mordak the belly-ache of the decade, no, the millennia!

✦  
✦✦ Stephen Farthing - Bristol  
✦

✦✦ Stay exactly where you are, deviant! The Black Ships are on their way to retrieve you as you are obviously a renegade peeper who must be brought under the sway of the Imperium. Your uncanny foresight suggests to me that you have been cursed with a third eye, such is the accuracy of your divination.

And just how do you know so much about the physiology of alien species? Perhaps an Ordo Xenos billion should accompany the Black Ship just to ensure that you're not conversing with vile xenofoms. You have been warned!
